Outcome Based Learning

Mamasaheb Mohol College

what is outcome based education system?

Outcome-Based Education (OBE) is a student-centric teaching and learning methodology in which the course delivery, assessment are planned to achieve stated objectives and outcomes. It focuses on measuring student performance i.e. outcomes at different levels.

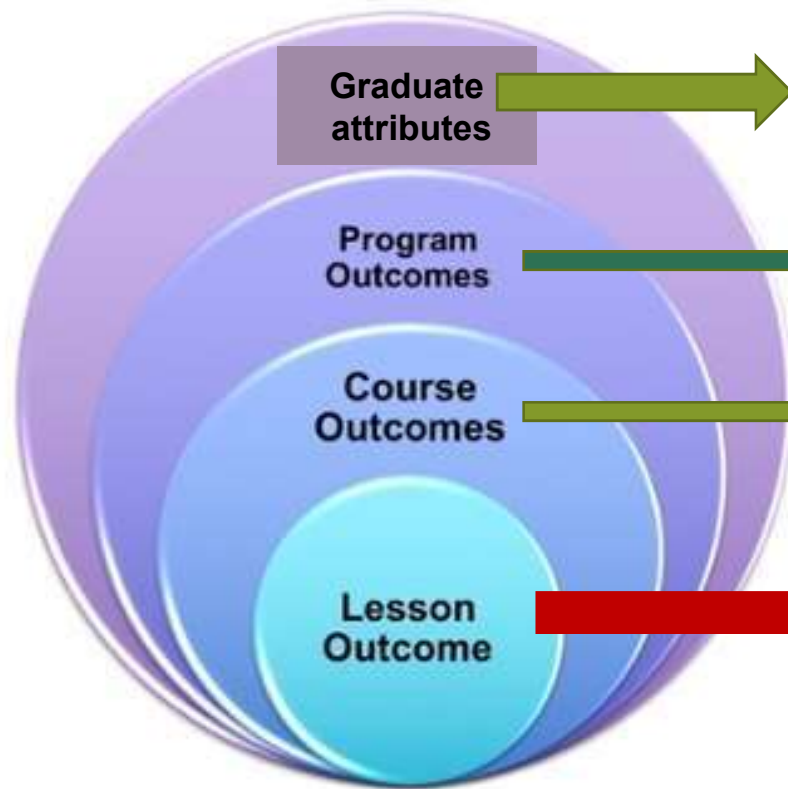

Advantages :

- Continuous Improvement
- Student-Centered Approach
- Transparency and Accountability

The process :

Step 1	Identify Desired Learning Outcomes
Step 2	Design Curriculum and Learning Experiences
Step 3	Align Assessment with Outcomes
Step 4	Develop Instructional Materials
Step 5	Implement the Educational Program
Step 6	Assess and Evaluate
Step 7	Analyze Results and Feedback
Step 8	Make Adjustments
Step 9	Communicate Results and Expectations

Learning Outcomes

Graduate attributes

A graduate attribute is a specific skill, knowledge, or characteristic that a student is expected to possess upon completing a higher education program.

Program Outcomes

Program outcomes are statements that describe what the knowledge, skills and attitudes students should have at the time of graduation (B A, B Com, B Sc)

Course Outcomes

Course Outcomes (COs) are what the student should be able to do at the end of a course. The most important aspect of a CO is that it should be observable and measurable (e.g. Principles of Digital Electronics)

Lesson Outcome

They provide clarity for both educators and students regarding the specific goals and expectations for a given lesson.(e.g. Combinational Circuit Design)

Attainment :

Step 1	Determine the level of attainment	Here 3 levels of attainment is taken as 1-Low; 2-medium; 3- High
Step 2	Set CO Attainment Targets	For example the target can be “the class average marks > 60 marks”
Step 3	CO-PO mapping	Indicates correlation between CO & PO
Step 4	Attainment calculation using direct method	Involves Internal and university examination Attainment calculation
	Attainment calculation using Indirect method	Involves student feedback survey for attainment calculation in addition to internal and university assessment
Step 5	Analyze Attainment	Analyze attainment to find the gap
Step 6	Take Remedial action	May involve curriculum changes, methodology changes or conduct remedial activities .
