OUTCOME BASED LEARNING

OUTCOME BASED LEARNING

WHAT IS OUTCOME BASED EDUCATION SYSTEM?

Outcome-Based Education (OBE) is a student-centric teaching and learning methodology in which the course delivery, assessment are planned to achieve stated objectives and outcomes. It focuses on measuring student performance i.e. outcomes at different levels.

Advantages :

- ✖ Continuous Improvement
- ✖ Student-Centered Approach
- ✖ Transparency and Accountability

THE PROCESS :

Step 1	Identify Desired Learning Outcomes
Step 2	Design Curriculum and Learning Experiences
Step 3	Align Assessment with Outcomes
Step 4	Develop Instructional Materials
Step 5	Implement the Educational Program
Step 6	Assess and Evaluate
Step 7	Analyze Results and Feedback
Step 8	Make Adjustments
Step 9	Communicate Results and Expectations

Learning Outcomes

A graduate attribute is a specific skill, knowledge, or character trait that a student is expected to possess upon completing an education program.

Program outcomes are statements that describe what knowledge, skills and attitudes students should have at the time of graduation (B A, B Com, B Sc)

Course Outcomes (COs) are what the student should be able to do at the end of a course. The most important aspect of COs is that they should be observable and measurable (e.g. Principles of Digital Electronics)

They provide clarity for both educators and students regarding the specific goals and expectations for a given lesson (e.g. Combinational Circuit Design)

ATTAINMENT :

Step 1	Determine the level of attainment		Here 3 levels of attainment is taken as 1-Low; 2-medium; 3- High
Step 2	Set CO Attainment Targets		For example the target can be “the class average marks > 60 marks”
Step 3	CO-PO mapping		Indicates correlation between CO & PO
Step 4	Attainment calculation using direct method		Involves Internal and university examination Attainment calculation
	Attainment calculation using Indirect method		Involves student feedback survey for attainment calculation in addition to internal and university assessment
Step 5	Analyze Attainment		Analyze attainment to find the gap
Step 6	Take Remedial action		May involve curriculum changes, methodology changes or conduct remedial activities .
